

# Niranjan Ravichandran

## iOS Engineer

niranjanrav@gmail.com | New York | 628-777-8256

### Skills:

**Languages:** Swift, Objective-C, Java, JavaScript, Shell

**Tools:** Git, Docker, Fastlane, Jenkins, Bazel

**Frameworks:** XCTest, XCUITest, KIF, Vapor

### Work Experience:

- **Veea Inc | iOS Engineer** *Jan 2017– Present*  
Built a *payments* framework (VeeaPay) in swift that supports ISO and CITCON processing, which is currently used across products at Veea. Built the core *search* feature on iOS for the consumer platform. Set up CI/CD for iOS products at Veea using *Fastlane* and *Jenkins*. Lead efforts within the team for feature development and took ownership of the consumer-facing product (Veea - Go Places). Contributed to the development of payments feature for merchant facing app (VeeaConnect). Represented Veea in trade shows like NRF (*National Retail Federation*) and NRA (*National Restaurant Association show*).
- **UNC Charlotte | Graduate Research Assistant** *Oct 2015 – Dec 2016*  
Built native iOS applications to aid research in the health care field. The goal of the apps was to replace traditional intervention/counselling methods with mobile phones.
- **Allscripts | iOS Engineer Intern** *June 2016 – Aug 2016*  
Worked on porting EHR (*Electronic Health Record*) mobile application to iPad. Reduced the overall launch time of the application. Optimized patient search feature within the app.
- **NTT DATA | Software Engineer** *Jan 2014 – Jan 2015*  
Contributed to feature development of BSS/OSS system; Responsibilities include feature ownership, testing, *firefighting and bug tracking*.

### Projects:

- **Veeahub Manager | Veea Inc** *Dec 2018 – Present*  
An iOS app to set up and configure Veeahub hardware for development and application deployment.  
*Languages: Swift*
- **Pro EHR Mobile | Allscripts** *June 2016 – Aug 2016*  
An iPad app for healthcare providers to remotely control their Allscripts EHR (Electronic Health Record) from any location.  
*Language: Swift, Objective-C*
- **Mauritius Explored** *June 2015 – May 2016*  
A photo based iOS application to guide tourists to explore beaches, mountains and more in Mauritius.  
*Languages: Swift, JavaScript*
- **mHealth | UNC Charlotte** *Oct 2015 – May 2016*  
A mobile application to guide students to have a safer drinking experience with an attempt to replace traditional counselling and face-to-face motivational intervention methods.  
*Language: Swift*

### Education:

- **Master of Science (Computer Science)** *Aug 2015 – Dec 2016*  
University of North Carolina at Charlotte - GPA 3.9
- **Bachelor of Technology (Information Technology)** *Aug 2009 – May 2013*  
Anna University - CGPA 8.0
